As a busy  
person, I always  
forget to use  
the coupons I  
clip. I want a  
way to be  
reminded that I  
have coupons in  
my wallet when  
entering a store  
or restaurant.

The diagram illustrates a mobile application interface for 'Noti-FLY'. The app is titled 'Noti-FLY' in green, with 'My Account' below it. A cartoon fly character is positioned to the right of the title. The form contains five input fields: 'Bill', 'Joy', 'billjoy090967@gmail.', a password field (represented by six dots), and '29429'. A 'Submit' button is located below the password field. A navigation drawer icon (three horizontal lines) is in the top left corner. A status bar at the top shows signal strength, battery level, and the time '11:27'. A user profile icon is in the top right corner. Annotations include: a yellow box pointing to the navigation drawer icon stating 'A control to open the navigation drawer'; a yellow box pointing to the 'Submit' button stating 'Hitting "submit" button will make a put call to the Notifiy database /Users/:id'; and a white box with a red border at the bottom showing a 'Submission Accepted' snackbar with the text 'Awesome!'.

Hitting "dismiss" button will clear the alert. Hitting the "Thanks" button will take the user to the Edit Coupon Form.
